REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The application is allowable as a result of an Appeal Conference. It was agreed as argued on page 4, 1st paragraph of Appellant's Appeal Brief filed September 24, 2004 that the Reibert et al patent sets forth a process wherein the cellulose is alkalized and then reacted with a methylating agent (an alkyl halide), which is different from the instantly claimed process which involves alkalizing cellulose in the presence of an alkyl halide as part of a suspension agent. Accordingly, the combination of the teachings of the Breckwoldt patent in view of the Reibert et al patent does not make obvious the instantly claimed process of preparing alkylhydroxyalkyl cellulose.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
